

User Stories

As a student, I want to know where study sessions are being held so that I can prepare for exams with my classmates.

As an event organizer, I want to know the number of people planning to come to my events so that I can properly prepare concessions and seating.

As a user, I want to know the identities of the people coming to my events so that I can be aware of who is attending.

As a student, I want to know what events my friends are attending so that I can attend with them.

As an Uber driver, I want to know where the big events are so that I can drive students to and back.

As a member of the University of Maine Police department, I want to know where the big events are so that I can keep people safe.

As a user, I want to be able to sort events by most to least popular so that I can go to an event with a gathering size I'm comfortable with.

As a campus faculty member, I want to know what students are doing around campus, so that we can best support their interests.

As a fraternity member, I want to be able to advertise my events so that I can increase participation.

As a parent, I want to know what events my kids are attending so that I know if they are safe.

As a user, I want my data to be secure so that sensitive information is not exposed.

As a user, I want multifactor authentication so that my account is secure.

As a business, I want to know when popular events are happening nearby so that I can prepare for increased pedestrian traffic.

As a user, I want to be able to log in to my account so I can see events I have committed to so that I don't forget the plans.

As a user, I want to be able to use hashtags on my events so that I can easily filter out events I am not interested in.

As a user, I want to be able to choose who can see my event details so that I can prevent unwanted people from attending.

As an event-planner, I want to be able to generate a link for my event so that I can send it to others.

As a regular user, I want to be able to set up a recurring event, so that I can avoid the hassle of reposting the same event repeatedly.

As a regular user, I want to be able to see a history of events I have planned and attended so that I can view what I have done previously.

As a commuter, I want to be able to see where the closest parking spots are for a certain event so that I can reduce walking time to the event.

As a user, I want to create a profile so that I can identify myself when I sign up for events.

As a user, I want to customize my profile so that others can learn more about me prior to events.
